SUMMARY

I am an aspiring computer science engineering student from National Institute of engineering mysore. I am an enthusiastic, self-motivated, reliable, responsible and hard working person. I have a strong grip in data structures algorithms and programming languages like python, c, c++, html, css, javascript, node js. I am an open source enthusiast, interested in learning new things related to machine learning, data science and other technologies.

EDUCATION**National Institute Of Engineering**

**2020 -
2024**

Bachelor of Engineering (Computer Science)
CGPA/Aggregate: **8.1**

EXPERIENCE**Skillvertex**

April 2022 - May 2022

Intern

Successfully completed python live project with Skillvertex.

PROJECTS**Game**

2048 game is a single player sliding puzzle game built using python. The game objective is to slide numbered tiles on a grid to combine them to create a tile with number 2048.
